

The Planning Process – No Permit required

What are the next steps?

- 1. If Council needs more information, or there are details outstanding a planning officer will contact you as soon as possible.
- 2. Once payment has been received this starts the assessment clock on your application unless we have requested further information, then the assessment clock will remain stopped until all the requested information has been received.
- 3. From here your application stays with Council and we begin the next step in the process:

NB: The Planning Process is separate and different to the Building Approval Process.
