

Expressions of Interest – St Helens Pump Track

INTRODUCTION

The Tasmanian Government has provided Break O'Day Council with \$500,000 in funding to construct two pump tracks.

One will be located at the Flagstaff Trailhead and the other will be located in St Helens. The exact sites will be determined through our consultation process and investigations.

We are currently seeking expressions of interest from interested community groups to join the St Helens Pump Track Working Group.

We will establish a working group with members from the MTB industry to develop the Flagstaff pump track.

EXPECTATIONS

Together with Council staff, the working group will consult with the community and develop a brief for the design of the St Helens pump track.

The project working group will assist with:

- Finding a suitable location
- Surveying the community so the needs of a variety of users of the pump track are understood
- Understanding what other infrastructure may need to be included in the design
- Developing a consultant brief for the design of the pump track
- Consulting the community on the concept

Working Group members will need to commit to undertaking consultation activities at both the St Helens and St Marys District High Schools as well as attending meetings.

If this is something you would be interested in please fill out the attached form and email to admin@bodc.tas.gov.au

Once working group members have been determined we will be in contact with a meeting time and place.

EOIs CLOSE: Monday 10 October 2022
